

Amanda Family Prompt List

Note: This prompt list applies to the following products:

Work.Place version 4, WorkGroup version 7, Work.Group.Windows version 3, Amanda Portal version 1.

This is the Recording version of the prompts for Amanda. It includes standard Greetings and is sorted for improving the recording quality. The assumption is that the "voice" is fresher at the beginning of the session rather than later. Therefore, prompts that would not be as impacted from low "energy" recording come at the end.
